Work Experience

Assistant Project Manager

January 2026 - Present

Tennessee STEM Education Center

Murfreesboro, TN

- Handled administrative tasks for large research projects, reducing operational load on researchers
- Facilitated stakeholder communication to clarify needs and align priorities
- Collected team feedback and evaluated performance to drive continuous improvement
- Created graphics, websites, and program materials using collaboration tools

Host / Server / Caterer

January 2024 - July 2025

Demos' Restaurant

Murfreesboro, TN

- Delivered consistent customer service in fast-paced, high-volume environments
- Coordinated customer flow and table placement while communicating closely with management
- Directed host stand operations during peak periods by assigning tasks and setting priorities
- Executed catering orders independently, adapting to new environments and customer needs

Study Abroad Coordinator

May 2023 - August 2023

Entrepreneurship & Empowerment South Africa (EESA)

Cape Town, South Africa

EESA is a six-week experiential study abroad program where student teams consult with marginalized small business owners in Cape Town, addressing real-world operational and business challenges.

- Coordinated logistics, transportation, and security to support student travel to client sites
- Conducted interviews and evaluated local entrepreneurs to assess fit for program participation
- Mentored student consulting teams on assessing client businesses and developing deliverables
- Collaborated with international teams across diverse cultural and academic backgrounds
